

# Certifications to set your students up for a successful future in healthcare

 **63%**

63% of institutions increase pay when an employee earns professional certification.

**75-93% of healthcare employers require certification for each of NHA's 8 allied health professions**

— NHA's 2020 Industry Outlook

## The State of CTE Health Science Programs

NHA surveyed more than 130 CTE educators to learn about the impact of health science programs in urban, suburban, and rural communities. Go to [info.nhanow.com/CTE-research](https://info.nhanow.com/CTE-research) to read the full article.

# Since 1989, NHA has awarded over 1 million healthcare certifications

NHA's medical certifications can improve college and career readiness, and are used by CTE programs nationwide:

-  Medical Assistant (CCMA)
-  EKG Technician (CET)
-  Billing & Coding Specialist (CBCS)
-  Electronic Health Records Specialist (CEHRS)
-  Phlebotomy Technician (CPT)
-  Patient Care Technician (CPCT/A)
-  Medical Administrative Assistant (CMAA)
-  Pharmacy Technician (CPhT)

As your healthcare certifications partner, we have ample resources to empower your CTE class:

- Test plans
- Study guides
- Practice tests
- Interactive content
- Focused Review® online remediation
- Online learning resources
