“Our goal is to make a real difference in the lives of students across the country by providing an immersive, effective, and engaging way to learn the essential skills they need to prepare for in-demand trade careers.”

**-DOUG DONOVAN, CEO
INTERPLAY LEARNING**

On average, students remember **90%** of what they learned through hands-on experiences

About Interplay Learning

Interplay Learning is the leading provider in simulation-based learning for the essential skilled trades. Our award-winning online and virtual reality courses for the skilled trades, including HVAC, Plumbing, Electrical, Solar, Multi-Family Maintenance and Facilities Maintenance help bridge the gap between classroom instruction and on-the-job experience. By leveraging immersive learning technology, students can practice hands-on learning from a desktop, tablet, or in virtual reality to give them more opportunities to build the knowledge and skills needed for futures careers.

Equitable Career Options for Every Student

Explore

Give students the opportunity to explore careers in the skilled trades by offering virtual field-like scenarios in your classroom.

Learn

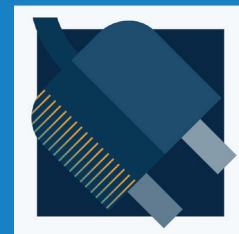

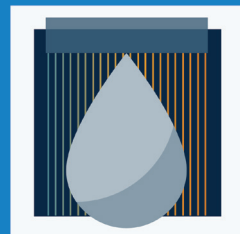

Provide accessible and versatile learning options to help students master skills and build more confidence in the classroom.

Career Readiness

Equip your students with the knowledge, skills, and industry certifications needed to start a skilled trades career after graduation.

Simulation-based Learning for These Industries and More:

- HVAC
- Plumbing
- Facilities Maintenance
- Electrical
- Construction
