

OUR LIVE-IN-THE-APP CERTIFICATIONS:

GLOBAL TRENDS:

Digital disruption has embraced all industries. Day in, day out, the countries are fighting for tech talent and are ready to offer large sums in the race to win all-star engineers. That said, an average software developer salary in the USA is \$110,638, meanwhile in Israel it's \$76,791, in the UK—\$68,462, in the Netherlands—\$54,025, and in Germany—\$60,162. | [DAXX.com](https://www.daxx.com)

“Industry certifications are an excellent way to set yourself apart, to increase your pay or to open new job opportunities and careers.

Our certifications provide a real advantage with their Live-in-the-App testing components, which validate that you can ‘write the code’ or ‘manage the website’ with real hands-on skills.

More than demonstrating that you are good at taking tests, these certifications demonstrate that you can **get the job done, and get the job.**”

Bryan Whatley
Chief Academic Officer
Knowledge Pillars

Authentic

100% Web-based, live-in-the-app advanced exam solutions.

First to Market

Offering innovative certifications and exam experiences.

Trusted

Our team offers over four decades of expertise in the EdTech industry.

Unique

Developing certifications that are skills-specific and suit the job roles of today.

About Knowledge Pillars

Established in 2020, Knowledge Pillars (KP) is the result of over four decades of expertise in the EdTech industries, building complex in-app questions-based vendor-neutral IT certification and practice tests. These 100% web-based certifications and skills validation services are globally recognized and highly sought after by teachers and potential employers, offering unique credentials for unique skills.

These state-approved certification exams can also easily be incorporated into the middle school, K-12, post-secondary and technical college curriculum. All exams go through quality standard settings to make sure we align to the highest psychometric parameters making our certifications a top set of credentials available worldwide.
