Connecting Education and Careers

Hello, Region V Members!

“An optimist understands that life can be a bumpy road, but at least it is leading somewhere. They learn from mistakes and failures, and are not afraid to fail again.” —Harvey Mackay.

Now that everything is in full swing and fall is upon us, it is sometimes challenging to remain optimistic, but this quote reminds me that it is so important to celebrate achievements, large and small.

I was recently introduced to a website called actionforhappiness.org, and it designates October as "Optimistic October." Each month, there is a new calendar of actions you can take to increase your happiness. The calendars provide opportunities to follow the "Ten Keys to Happier Living" as designed by Action for Happiness.

Region V Innovative Program Awards

Did you know that each state and territory in Region V can submit for the innovative awards? There are so many unique, innovative and creative career and technical education (CTE) programs across Region V, and we want to recognize YOURS! Each state association may submit one nomination annually, make sure to submit your nomination by the March 1st deadline.

All CTE programs qualify for the award, so long as they meet the following criteria:

- Program must demonstrate a capacity to prepare graduates to perform successfully in an occupational field
- Program should exemplify the highest standards within its occupational field

- Staff must be involved in an in-service program to keep abreast of technological changes in their occupational field
- Program must have been in operation for at least three years
- Instructor(s) in the program must have been a member of the state association for at least three consecutive years.

I challenge each state association to apply for the Innovative Career and Technical Education Program today! Go to the [Region V Awards page](#) to get the application and more details now. Let's show our state and regional pride and have all 16 states and territories represent their innovative CTE programs!
