- **Division/region Concerns for CTE/ACTE Board Report:**

What are your concerns for CTE?	What are the implications for ACTE?	What should the Board do to address this issue?
---------------------------------	-------------------------------------	---

<i>Trying to get the divisions to work together building the core of CTE from the state level to the regional level then to the national level</i>	<i>We are stronger as one unit then many. If we don't look at the core (what common values) between the divisions then we will keep slitting apart.</i>	<i>Try to find a central core of all the divisions and build off of it. It seems most divisions only care about their area and not the ACTE as a whole.</i>
<i>The most support among division is at the state level, then the regional level and the least amount at the national level</i>	<i>People don't see the value of the divisions or their support and see some divisions as stronger.</i>	<i>Find a way to work from the state levels up within the divisions.</i>

What are your concerns for ACTE?	What are the implications for ACTE?	What should the Board do to address this issue?
<i>Development of partnership with businesses and industry. We need to get their support and work with them in promoting the need for CTE in the future. ACTE need a plan to get industry and work with them to make changes within CTE, so we are doing the best for our students and for industry.</i>	<i>If we don't expand out base (building partnerships with industry) we will look like all other organizations and just like them start to disappear.</i>	<i>Develop an plan on a building relationship with large industry to get heir support.</i>
<i>Finding a strong replacement for Jan</i>	<i>We could have lose a lot of our membership</i>	<i>Do not rush it, but build the best committee to work on finding a replacement that will keep us moving forward. Listen to the ACTE staff for insight.</i>
