INTRODUCTION

The Association for Career and Technical Education (ACTE) is a group of affiliated state and territorial career and technical education (CTE) associations. These associations were organized to provide leadership and services that promote, improve and maintain the quality of career and technical education. ACTE is structured into regions and divisions, with a president elected by the membership for each region and division.

ACTE has divided the organization into five regions. The regional structure creates a linkage, giving states and local members greater accessibility to the national office. Each regional president is elected by the membership within the state associations of their respective region. The regional president also serves as a voting member of the ACTE board of directors. Communication from ACTE is disseminated through these regional presidents to the member states and then to local members, and vice versa.

ACTE's Divisions represent members in various related areas such as administration, agricultural education, business education, counseling and career development, engineering and technology education, family and consumer sciences education, health science education, new and related services, postsecondary, adult and career education, trade and industrial education, and work-based learning.

Region II Overview

Region II is an internal unit of ACTE. Being a region comes with the responsibility of being accountable to its members. This includes fostering membership involvement to ensure professional growth and development for all.

Region II Policy Manual and Procedures Manual

The following Region II Policy and Procedures Manual outlines the policies that define the structure and responsibilities of the regional organization. It also includes procedures for implementing each policy. The intent of the Region II policy committee in developing these procedures is to ensure the consistency of Region II's activities from year to year, further strengthening the national organization while providing increased service and accountability to local members.

GOVERNING DOCUMENTS

As part of the established structure of the ACTE, Region II is governed by ACTE. The Articles of Incorporation and Bylaws, which govern ACTE, also apply to Region II.

Articles Of Incorporation

ACTE is a nonprofit corporation established in the state of Indiana in 1929. The Articles of Incorporation include the name of the corporation, the purposes for which it was formed, and a statement that all rules of the corporation are to be embodied in the Bylaws. A copy of the Articles of Incorporation is retained at ACTE headquarters.

Bylaws

The Bylaws of an incorporated nonprofit organization typically include provisions regarding:

- The purpose of the organization
- Membership qualifications
- Election and duties of directors
- Role of members (if applicable)
- Meetings of members and directors, including notice, quorum, and voting
- Role of executive and other committees
- Relationship between state associations and division organizations
- The organization's fiscal year
- Procedures for amending the Bylaws
- Indemnification and dissolution processes

Bylaws are living documents and subject to change as organizational needs evolve; however, substantive changes should be minimal. Operational details are typically found in the Board Policy Manual. Only the members of the association can amend the Articles of Incorporation and the Bylaws through the Assembly of Delegates.

Region II Policy and Procedures Manual

The Region II policy and procedures manual should include all operational details of the organization. Policies are established by the policy committee to guide the region in operating effectively, efficiently, legally and ethically. Policy decisions impact the region as a whole, providing a framework within which volunteers and staff manage the programs and services of the association. Standard operating procedures include election protocols and expense reimbursement. Specific action items or annual decisions are generally not part of the manual. The Region II policy and procedures manual is reviewed and approved annually by the Region II policy committee..

Strategic Plan

The strategic plan, developed by the board of directors, represents the core purpose and values of the association. It serves as a blueprint for the organization's future direction. The plan guides the priority allocation of resources and determines the annual objectives and work plans for volunteers and staff. The board of directors reviews the status of the ACTE strategic plan annually, with goals and objectives reviewed every two to three years. Committees and staff identify and implement strategies and tactics to achieve the plan's goals and objectives.

Budget

The budget outlines how the association allocates its resources. It sets financial parameters and serves as a guideline for implementing each activity within the association. The programs within the budget should align with the ACTE strategic plan. The board of directors approves the budget each July.

Committee Charters and Job Description

Committee charters define the goals and parameters for all committees within the association. These documents outline the authority and responsibility of the committees and their chairs. The board of directors approves all committee charters and job descriptions.

File Management

The region's files are to be maintained in an organized and up-to-date manner within the shared Google Drive provided by ACTE, ensuring easy access, efficient collaboration and accurate record-keeping. Relevant folders may be shared with policy members who require access to specific documents. The region president is responsible for submitting reports, minutes from policy committee meetings, region standing committee and task force meetings, as well as other regional activities, to the appropriate folders within 45 days following each meeting.
